BIG RAILROADS WANT \$4.9,000,000

Tremendous Sum to Be Raised for the Betterment of Sixteen Leading Systems.

The big railroads of the United States are arranging to increase their fixed charges to meet the expense of past and future betterments. The aggregate outlay required by sixteen corporations is \$400,000,000. All this amount has aiready

SMO,MO, SO. All this amount has arready been authorized by accret meetings of railroad directorates. In many cases the necessary bends and stocks have been issued, but not distributed.

In all cases the new recurities will become preferred liens on the property and will bear interest. Banking institution and the public must turnish the funds. With the almost unprecedented appreciation of securities eighteen months ago, all the railroad companies made big contracts for betterments. Arrangements were made for new equipment, new bridges, new rails, changes in grades and other improvements.

In many instances notes were given the contractors as payment. These notes are new falling due. Additional funds are needed to complete betterments begun or to make those now considered absolutely essential.

DEPRECIATION CAME.

DEPRECIATION CAME.

In the meantime there came a depreciation in values, and raliroad companies are not in a position to meet the obligations they expected to pay from increased receipts. Notes soon becoming due must be met and funds must be provided for contracts which are now being made. There was no alternative but to increase liabilities.

During the past three days fifteen men have been in secret session at the New

During the past three days fifteen men have been in secret ression at the New Willard hotel in Washington. They represent all the leading contracting firms in the United States, that practically furnish all the equipment and betterments for railroads. They have been figuring on bids for additional work, and discussing the outlook. They have had before them in their deliberations the following list of railroads which have issued or authorized the issue of additional bonds and stocks, with the amounts.

New York Central and Loke New York Central and Lake

Shore . Wabash Brooklyn Rapid Transit Erie Pennsylvania Southern rallway Hilinois Central Union Pacific and Southern Pacific Atlantic Coast Line ... Seaboard Air Line
Pittsburg Conl company
Republic Steel company
Missouri Kansas & Texas.
Lehigh Valley NO REDUCTION IN BIDS.

The Pennsylvania company has already given notice of its issue. The New York Central has placed its \$40,00,000 of stock with J. Pierpont Morgan & Co., but it has not yet been distributed.

The Pittsburg Coal company and the Republic Steel company operate only such railroad lines as are used in their own business.

It is the opinion of the fifteen contract It is the opinion of the friend contactors agents here that there can be no reduction of prices in future bids, aithough the cost of material is less. This is due to the practice of paying for work in notes. The contracting firms must discount these obligations to realize guickly, and this lowers the profit. There was also a disposition to limit the volume of contracts. It was realized that an in-

also a disposition to limit the volume of contracts. It was realized that an increase of liabilities to the extent of 279,600,600 among railroads having their securities listed must eventuate in material reduction of selling values.

At the same time, it was explained, this enormous issue of bonds and stocks has been anticipated in financial centers, and no sharp declines are expected on this account. The new indebtedness being account to the expectation of the contract of count. The new independent ines is about quired by the great railroad lines is about evenly divided between old and future

bligations. The Union Pacific is said to have \$22, on,000 in notes which will mature during the next sixty days. All the future estimates are based on a period of eighteen months from January 1, 1994. The past and future obligations include all the extravagances induced by the boon of eighteen months ago and the necessities of the present.

HORACE G. BURT MAY BE ONLY RESTING

Now comes the rumor, says the Omaha Bee, that after all Horace G. Burt never left the employ of the Union Pacific Rall-road company, or at least the powers which control that system, and that although he is on a tour of the world, which may last as long as Mr. Burt wishes, and that while he may never act in the capacity of President of the Union Pacific again, he nevertheless is under the same salary—which Wall street says was \$25,000 a year—he drew while performing the functions of president. This is not a fancy of the street, but is the opinion of certain rallroad men and was given as the bellef of several who are in the service here in Omaha. Now comes the rumor, says the Omaha here in Omaha.

GEORGE GOULD HEADED FOR THE FAR WEST

It is expected that George Gould will make a tour of the Rio Grande properties within a short time, after having made an extensive inspection of his other Western railroad interests. Mr. Gould is in New Orleans and is said to be coming in this direction.

After the Mardi Gras festivities, Mrs. Gould and friends, who accompanied Mr. Gould, will go to California. He expects to make an inspection of the Southwestern lines and will go over all the improvement work. His present plans are said to include a trip over the Rio Grando properties. He intends to return to St. Louis to attend the annual meeting of the Missouri Pacific on Tuesday, March Sth.

WILLOW CREEK BRANCH

IS BEING SURVEYED

Surveyore in large numbers are running lines for a branch road to Willow Creek. Wyo., fifteen miles west of Kemmerer, to connect the Oregon Short Line with the coke fields at that place. The coke deposits are being developed by the Kemmerer Coal company and the announcement is made that as soon as the new rall-road is completed 150 coke ovens will be installed. It is said that the largest coke camp in Wyoming will be established. It is also said that the Kemmerer company will expend in the neighborhood of \$1,000.00 in erecting ovens, houses for employees and a mining plant. Surveyors in large numbers are running

MILLARD COUNTY WILL BUILD A RAILROAD

Citizens of Millard county are deeply interested in the proposed construction of a railroad from Kanosh to Oasls, which is being strongly urged by prominent peo-

The scratch of a pin may cause the loss of a limb or even death when blood poisoning results from the injury. All Ganger of this may be avoided, however, by promptly applying Chamberlain's Pain fishm. It is an antiseptic and unequaled as a quick healing liniment for curs, bruises and burns. For sale by all formulations of the Denver police.

The woman is supposed to be wanted for connection with a criminal operation performed upon a young woman.

She is expected to return without extradition papers. It is believed the woman arrived here a week ago and opened an office, advertising herself to be a fortune teller. While here she went under the name of Benton. loss of a limb or even death when blood

pie of the southern county. The proposi-tion is purely a local one and a novel scheme has been devised whereby the road may be built.

It is estimated that the sum of \$78,000 will be necessary to grade the road and furnish the fies. The amount is to be paid with labor, if present plans do not mis-carry, each able-bodied man in the coun-ty having agreed to donate his services with a team for a period of thirty-five days each. Those who have the proposi-tion under consideration have figured it out that the road can easily be built in that way.

out that the road can easily be built in that way.

A county convention has just been held at Fillmore, at which delegates from every village and hamlet in the county were present to discuss the vital rairoad question. Officers and committees were appointed to devise ways and means and to make a complete report of the result of their investigations at another meeting, which will be held later.

State Land Commissioner J. A. Meiville was among the number who addressed the convention. He stated that he had visited various electrical companies in the interest of an electric road, but that they had decided that such a plan was impracticable. As for a railway, or dummy line, he said that money could easily be raised to provide the rolling stock and other equipment if the people would grade the road and furnish the ties.

His suggestion has practically been accepted and the citizens of that county stand ready to donate their labor at the proper time. It is said that the road is now practically assured.

REPORTED CHANGES OF UNION PACIFIC TRAINS

CHEYENNE. Wyo., Feb. 19—A report is current here, but cannot be officially substantiated, that the Union Pacific will make several important changes Februray 23rd, including the abolishment of train No. 5 from the east and No. 102 from the west. The business of these trains will be handled by Nos. 3 and 5, which follow them closely.

It is also rumored that Oregon Short Line trains now connecting with the Union Pacific at Granger will be run into Green River.

Officials of the road in this city claim no knowledge of the reported changes.

MAN HUNT IN THE WILDS OF MONTANA

Picked Men Start in Pursuit of Band of Desperadoes, and Battle Is Expected.

GREAT FALLS, Mont., Feb. 19 .- A desperate man-hunt was begun in northern Montana this morning, when two possess of determined men left Poplar and Glasgow, in Valley county, respectively, to run down the members of the notorious Jones gung. The chief of the band, Frank Jones, was killed near Poplar last week by Deputy Sheriffs George Bird and John Mor-

It is stated that six members of the Jones gang were seen two days ago near the ranch of A. N. Tande, where Jones was killed. These men were without horses, and the officers hope to overtake them before they secure mounts and make off to their stronghold in the Bunch Willow region, near the international line The posse from Glasgow, the county

The posse from Glasgow, the county seat, is headed by Sheriff Frank Cosner, and that from Poplar is in charge of Deputy Morgan. The posses are composed of picked men. The Poplar party was equipped by the Indian agent of the Fort Peck agency.

The Jones gang has terrorized Valley county for ten years, becoming bolder each year. Horse-stealing, raids on stock ranches, burning ranch buildings and highway robbery were their chief of fenses, although murder and kidnaping are also laid at their door. Should the posse overtake the desperadoes, it is expected that a desperate battle will ensue.

We are prepared to invest your funds so that they will bring you the largest returns compatible with safety. You hold the security. We do the work. McGurrin & Co., 134 Main St.

OCEAN LINER BATTLES WITH MOUNTAINOUS SEAS

Steamship Lahn Has Tempestuous Voyage From Sunny Italian Ports.

NEW YORK, Feb. 13.-Battered by heavy seas and with her captain and second officer injured by an enormous wave that swept over the lofty bridge, the steamer Lahn reached port today after a tempestuous voyage from Genoa, Naples and Gibraltar.

She had a very rough passage throughout, being under reduced speed

every day.

On Sunday, February 14th, the weather was very squally and stormy and seas repeatedly broke over the fore deck. One giant sea struck the bridge and knocked Capt. Bolte and Second Officer Glund down fracturing ficer Glund down, fracturing two of the captain's ribs and bruising the second officer about the head. bruising the second

The bridge was damaged, staunchions bent and part of the rail carried away. The Italian steamer Sicilia, also from Italian ports, had a similar experience.

Dr. M. T. McLaughlin, 031 Sixteenth Street, Denver, Cojo.

A Simple and Certain Method

Every mother knows that the danger line in the development of a girl is crossed at the point where girlhood and turbing all the later life and frequently lead to consumption and the most frightful derangement of the nervous system. This critical point cannot be too closely guarded. Care incures robust health, neglect means living misery. Mothers of growing girls can profit by the experience of Mrs. E. C. Young of No. 303 Lynn street, Ithaca, N. Y., who was safely brought through her girl-hood's critical period by a simple course

"When I was seventeen," she says,
"I began to fail in health and, in spite
of all the medicines our family doctor
gave me, I continued to grow worse.
Neither he nor another doctor who also
attended me seemed to be able to reach
the cause of my trouble. It was chlorosis, they said, a form of anaemia with
which girls of about that age are often
afflicted. I was troubled with shortness
of breath, hadn't a bit of color and
couldn't go upstairs without being all
tired out. My limbs were dreadfully
swollen and my appetite entirely gone.
I had nervous headaches for which a I had nervous headaches for which a doctor recommended glasses, but the glasses did not cure them. Each month suffered a great deal of pain and was

A Michigan Specialist Finds an Easy Way to Cure Any Case of Sexual Weakness Even in the Oldest Men, This Wonderful Cure Has a Most Marvelous Record of Successes.

SENT FREE TO ALL WHO APPLY IN WRITING

There are thousands of cheerless homes in this country filled with discontent and cubappiness, lacking in love nd companionship through the sexual weakness and physical impairment of a man whose years do not justify such a condition. Indiscretions, abuses and recklessness often cause a temporary cessation of vital power that instantly yields to the wonderful treatment discovered by the great specialist, Dr. H. C. Rayner of Detroit, Michigan. It has remained for this great physician to discover that sexual weakness and similar troubles can be cured and in remarkable short spaces of time. This treatment does not ruin the stomach, adding the miseries such injury entails, but it is a new treatment that easily and quickly restores youthful vigor to men as old 2.5 55.

The discovery is beyond doubt the most scientific and comprehensive that our attention has ever been called to From all sides we hear private reports of cures in atubborn cases of sexual weakness, enlargement of the prostate, varicocele, spermatorrhoea, lost manhood, impotency, emissions, prematurity, shrunken organe, lack of virile power, bashfulness and timidity and like unnatural conditions. It does this without appliances, vacuum pumps, electric belts or anything of that kind. Satisfactory results are produced in a day's use and a perfect cure in a short time, regardless of age or the cause of

your condition.
The lucky discoverer simply desires to

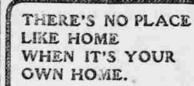

get in touch with all men who can make use of such a treatment. They should address him in confidence. Dr. H. C. Raynor, 150 Luck building, Detroit, Mich., and immediately on receipt of your name and address it is his agreement with this name to send users. ment with this paper to send you a free rece pt or formula of this modern treat-ment by which you can cure yourself at
